BRUZZLER

Technical prerequisites (technical rider) coverband / live band BRUZZLER:

- Stage size has to be at least 2,5m x 5m
- Width of BRUZZLER light truss: > 6,5m on top, 8,5m on the floor, including stands
- Possibility for installing a stage curtain / backdrop. Size: min. ca. 3x3m, max. 7x3m
- A ladder is provided for installation of curtain/backdrop & light equipment by promoter
- Power supply: 1 x 32A CEE- Socket (European standard)
This power supply is provided *exclusively* for the stage!
- Stage has to be clean & accessible at least 5h prior to the start of the show
- A stage hand is provided by the promoter prior and after the gig (duration ca. 30 minutes)
- The promoter is legally liable for safety of stage equipment, including possibility of theft. Only authorized personnel is allowed to enter the stage. This is valid from the moment when the first piece of equipment is put on the stage until the last piece of equipment has left the stage (=before, during and after the gig).
- No unauthorized persons are allowed on stage, hazard due to the use of pyro!
- A description of the route to the venue is provided to BRUZZLER liveband one week before the show at latest.
- Accomodation to be provided by the promoter (e.g. hotel room on the night prior to the gig and on the night of the gig).
